

Keeping the world sewing!

Husqvarna Viking is a prestigious name in sewing. Both as a producer of high quality sewing machines, and as a worldwide organisation marketing a complete line of sewing machines and overlockers for home use. Founded as a royal arms factory in 1689, Husqvarna Viking has been making sewing machines since 1872.

The mission of Husqvarna Viking is to provide sewers all over the world with inspiration and a wide range of tools that make it easy and fun to sew. We want our customers to associate our brand with innovative, high quality and user friendly products, and to feel that we support them with creative sewing ideas, inspiration and advice.

Our customers are members of the Husqvarna Viking family! Everything we do conveys the joy of sewing – our products, shops, classes and clubs, our marketing material and our website.

Exclusive Sewing Advisor

Just 2 easy steps

Step 1 - Select the fabric type

Step 2 - Select the type of sewing

Selects and sets the correct stitch, stitch length, stitch width, automatically adjusts the tension, and recommends the correct needle and presser foot to suit.... It's that easy!#

Exclusive Sensor System

ESS, the Exclusive Sensor System - automatically senses the thickness of the fabric and adjusts the foot pressure for even feeding. ESS allows you to set your machine to lift the foot and pivot in one action for hands free pivoting!

Sapphire – The ultimate in sewing...

Why does Helen Godden love her Husqvarna Viking Sapphire Sewing Machine so much?

Why its the Exclusive Sensor System!

With the touch of a button I'm able to set my machine to sense the thickness of the fabric and automatically adjust the tension, theres no fiddling and theres no foot lever! ESS allows the machine to lift the foot and pivot in action... without having to lift a lever or use a kneelift, my hands are free to stay on the job... and the dual lighting is fantastic for my 3am sewing fix!

I love the longer arm and the extra 2" is perfect for my large quilts... and the little man under the sewing plate who cuts my threads on demand... I don't know how I lived without him before! Ahh my Husqvarna Viking – I wouldn't trade it for the world!

Winner of:

- 1st in Art category "Mother Earth" Festival of Quilts Birmingham UK 2009
- Inaugural A World of Beauty award "Seasonal Sisters" IQA Houston USA 2008, Best of Show Road to California USA 2010

INSPIRA FAB-U-MOTION

The ergonomically designed Fab-U-Motion eliminates neck and back strain when free motion sewing and quilting.

No pushing or gripping the fabric under the needle, and no more strain on the thread or needle! Sit back in your seat and move the Fab-U-Motion with ease for smooth stitching!

No installation required, simply slide the Fab-U-Motion under your machine.

INSPIRA NEEDLES

- New shaped eye to reduce thread shredding
- Made from German steel
- Diamond cut not ground
- The needles are ultra sonically cleaned during the manufacturing process to maintain the strength and integrity of the needles and reduce our carbon footprint
